Career Objective

Full-Stack Software Engineer with **3 years** of experience developing scalable web applications using **MERN Stack**, **Next.js**, and **Shopify**. Skilled in developing **SaaS platforms**, **e-commerce solutions**, **AI-powered automation**, **RESTful APIs**, and **production-ready systems**, with a strong focus on **performance**, **scalability**, and **user experience**.

Experience

Software Engineer (MERN Stack)

Feb 10, 2026 – Present

Chapter 24 - UI/UX Design Agency for SaaS – House No. 4, Dhaka Housing Road, Adabor, Shyamoli, Dhaka-1213

- Developing custom Shopify applications using **MERN Stack** (MongoDB, Express.js, React/Next.js, Node.js).
- Building scalable web applications for **SaaS platforms** and **Shopify**.
- Integrating **Shopify Admin API**, **Storefront API**, **Webhooks**, and third-party services.
- Developing secure REST APIs and optimizing application performance for production environments.

MERN Stack Developer (Remote)

Jul 2023 – Feb 2026

Aurmita Ltd. – Barishal, Bangladesh

- Architected and developed a complete **Next.js**-based business platform, including the public website, internal management portal, advanced **Admin CMS**, order management, product management, blog management, and dynamic content management.
- Engineered scalable backend services using **Node.js**, **Express.js**, and **MongoDB**, implementing secure **REST APIs**, authentication, payment gateway integration, database architecture, and third-party API integrations for end-to-end business operations.
- Improved application performance using **Skeleton Loading**, **lazy loading**, **image optimization**, **caching**, and **code splitting**, while handling production deployment, server configuration, monitoring, and database maintenance.

Projects

FABROMS – Clothing E-commerce Platform

[\[Live Website\]](#)

- Developed a full-stack clothing e-commerce platform using **React.js**, **Node.js**, **Express.js**, and **MongoDB** for selling fashion products, featuring a fully responsive and modern user interface.
- Implemented secure backend APIs, **payment gateway** integration, product browsing, filtering, cart, checkout, order management, and database architecture to support complete e-commerce operations.
- Independently deployed the application, configured hosting, connected the custom domain, and managed the production environment for reliable performance.

PDC – Professional Development Center Management System

[\[Live Website\]](#)

- Developed a full-stack training management system using **React.js**, **Firebase**, **Node.js**, and **Express.js** for managing professional CA courses, live exams, learning resources, course enrollment, student management, and secure authentication.
- Integrated the **bKash payment gateway** through a custom **Node.js/Express** backend and built a fully responsive user interface with resource upload/download capabilities.
- Managed production deployment, hosting, traffic optimization, and overall system maintenance to ensure scalability, reliability, and high performance.

Roamad Travels – Travel Agency & Tourism Management Platform

[\[Live Website\]](#)

- Developed a full-stack travel platform using **React.js**, **Node.js**, **Express.js**, and **MongoDB**, featuring tour packages, flight & visa booking, travel planning, an integrated e-commerce shop, and a comprehensive **Travel Guide** for destinations across Bangladesh.

- Built a secure **Admin Management System** with authentication, role-based access control, rich-text editing, **Weather API** integration, scalable REST APIs, and custom domain deployment.

MediCampus – Pharmacy Marketplace & Medicine Delivery Platform [\[GitHub\]](#) [\[SMTP Server\]](#)

- Developed a full-stack multi-vendor pharmacy marketplace using **Next.js**, **Firebase**, **Node.js**, and **Express.js**, enabling online medicine ordering, home delivery, pharmacy management, inventory control, secure **OTP-based authentication** via a custom **Node.js SMTP server**, and scalable REST APIs optimized for performance, security, and reliability.

CPL Cricket Auction – Live Auction Management System [\[GitHub\]](#)

- Built a real-time cricket auction platform using **React.js** and **Firebase**, supporting live bidding, player management, automatic team allocation, and real-time data synchronization.
- Developed secure authentication, live auction dashboards, interactive animations, and responsive interfaces to deliver a seamless auction experience for organizers and participants.

WhatsApp AI Assistant Automation – n8n Workflow [\[Live Demo\]](#)

- Built an AI-powered WhatsApp assistant automation using **n8n** and **Gemini Flash API**, integrating workflow automation, API orchestration, message processing, and real-time AI-generated responses for seamless WhatsApp communication.

Technologies

Languages: JavaScript (ES6+), TypeScript, Python, C++, C, SQL

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend & APIs: Node.js, Express.js, REST APIs, Firebase Functions, JWT Authentication

Databases: MongoDB, Firebase Firestore, Firebase Realtime Database

Cloud & DevOps: Firebase Hosting, VPS, Nginx, Cloudflare, Git, GitHub, Docker

Payments & Integrations: bKash Payment Gateway, SMTP Email, Weather API, Google Maps API

AI & Automation: n8n, Gemini Flash API, AI Workflow Automation, Prompt Engineering

Tools: VS Code, Postman, Firebase Console, MongoDB Compass, Figma

Education

Patuakhali Science and Technology University Mar 2022 – Present

B.Sc. (Engg.) in Computer Science and Engineering

- CGPA (Till 7th Semester): 3.46/4.00

Shahid Syed Nazrul Islam College, Mymensingh Year of 2019

Higher Secondary Certificate (HSC), Science – GPA: 5.00/5.00

Gafargaon Islamia Government High School Year of 2017

Secondary School Certificate (SSC), Science – GPA: 5.00/5.00

Achievements & Leadership

- **CSE Club, Patuakhali Science and Technology University (PSTU)**
 - **General Secretary** (7th Executive Committee)
 - **Assistant General Secretary – Programme Organizing Wing** (6th Executive Committee)
 - **Project Management Wing Lead & Programming Bootcamp Coordinator** (5th Executive Committee)
 - Hosted the **National High School Programming Contest (NHSPC) 2026** regional event at PSTU.
- **Research Publication:** Paper accepted at **IEEE PECCII 2026**.
Explainable Breast Cancer Histopathology Classification Using Self-Supervised Vision Transformers and Attention-Based XAI
- **Achievements:** **Champion** — PSTU IT Carnival Hackathon 2024; **Champion** — PSTU IT Carnival Project Showcase 2023; **1st Runner-Up** — Bystrom Symposium 2026.
- **Competitive Programming:** Solved **194+ problems** on Codeforces (Maximum Rating: **891**).
